We offer

A unique and challenging job where you have every opportunity to develop your skills, when you lead and develop some of the world's largest offshore wind projects.

In Ørsted, we have a high level of expertise and many complex and challenging work tasks. We work goal-oriented and efficiently with some of the world's largest offshore wind projects, and we are committed to reducing the cost of electricity.

About Ørsted

Headquartered in Denmark, Ørsted's 5,600 employees develop, construct and operate offshore wind farms, bioenergy plants and innovative waste-to-energy solutions and provide smart energy products to its customers. Ørsted Wind Power's 2,300 dedicated employees have developed and constructed the largest portfolio of offshore wind farms in Northern Europe, and we're expanding with international activities in the US and Asia-Pacific. For more information on Ørsted, visit [Orsted.com](https://www.orssted.com).

Contact us

Please don't hesitate to contact Jane Liu, HR Manager of Taiwan office, by email on twrecruitment@orssted.com if you'd like to know more about the position.

We look forward to receiving your application, CV and diplomas as electronic files as soon as possible and no later than 30 June 2018, as we will be conducting interviews on a continuous basis.
