

## Head of Governmental and Regulatory Affairs building Taiwan green energy future

*Join us as Head of Governmental and Regulatory Affairs in our Taipei office, where you will be responsible for our governmental and regulatory affairs work and stakeholder management. You will be monitoring the regulatory development and energy policies and anticipate and analyse the consequences of changes in the markets within our footprint. You will engage actively in dialogue with policy makers and other external stakeholders, but also with internal stakeholders, communicating business impact.*

You will be based at regional APAC hub in Taipei Taiwan.

### Your key tasks will be to

- create stakeholder overview and build up strong network among key stakeholders
- identify and articulate regulatory must-win-battles and develop regulatory key actions / implementation plan
- ensure implementation of the regulatory engagement plan
- develop mid and long term public affairs and regulatory strategy
- function as the local, regulatory knowledge point
- conduct regulatory analyses and presentations and provide the basis for decision-making
- act as project lead on specific task and/or participate in project groups
- communicate your expert knowledge on energy policy and regulatory framework, keep transparency for top management
- advise Wind Power on the impact of the development of the political and regulatory framework for offshore wind in the Taiwanese market, keeping regional (Asian) implications in mind
- align our regulatory positions and communication across our footprint
- work strongly together with market development and communication advisors
- collect best practice from other markets
- support into further expansion APAC markets

### Your qualifications and core competences include that you

- have an MSc degree in economics or political science
- have accumulated years of experience working within the regulatory environment in Taiwan
- preferably have several years of experience with the complexity of the energy sector/renewable industry
- are an inspiring team player as well as position in leadership skills and represent Ørsted senior external stake-holders
- have a flair for bringing new angles of solutions into play
- are a Taiwanese native with strong communication skills, especially in English, enabling you to communicate effortlessly with your external and internal stakeholders

### We offer

A unique and challenging position where you have every opportunity to develop your skills and influence the green transition of the energy sector in a leading position. Your enthusiastic and skilled colleagues will support you, and you will enjoy a modern working environment where everybody is committed to contribute to creating a world which runs entirely on green energy.

In Ørsted we have a high level of expertise and many complex and challenging work tasks. Working for us, you will experience extensive business insight and a strong sense of responsibility.

### Contact us

Send your application , CV and diplomas to us as soon as possible, as we'll be conducting interviews on a continuous basis.

Please do not hesitate to contact Jane Liu – HR Manager Ørsted Taiwan, on email [twrecruitment@orsted.com](mailto:twrecruitment@orsted.com) if you want to know more about the position.
